CAT & DOG SUPPLEMENT SERIES

ZIRHLI YAĞ GIDA TARIM KİMYA VET. SAN. VE TİC. LTD. ŞTİ.

We; have been producing food supplements and cosmetic group products for pets and racehorses since 2000. All of our products are high quality formulas that allow them to live healthier and more comfortable lives and products that are accepted in the industry and have customer satisfaction.

All of our products are manufactured in our facilities, have ISO 9001: 2008 (Quality Management System) -ISO 22000: 2005 (Food Safety Management System) and GMP (Good Manufacturing Practice) certificates, with the registration and production permit from the Ministry of Food, Agriculture and Livestock.

Our products of various brands are already sold in veterinary clinics and animal clinics in all regions of Turkey.

Due to the increasing interest in pets around the world; we want to expand our sales network with the brand Clovit to include new products and new markets in countries other than Turkey.

In addition, our products, which are used to treat nutritional supplements and diseases that racehorses require, are currently sold in equestrian clubs, hippodrome hospitals and veterinary clinics.

Each of the products we manufacture has gained a brand value in the industry. We would like to have your valuable opinions and cooperation for our products, which we offer according to your requirements.

CAPRO'S 100 gr.

clovit[®]

Coprophagia is a behavior disorder that is rare in cats and frequent in dogs.

Coprophagia can easily turn into a habit. Some dogs not only eat their own feces but also the feces of other dogs or other animals such as cats or horses.

This may be the cause for several diseases particularly including parasitic infections.

• CLOVIT CAPRO'S PREMIX CONTENTS:

- **Aromatic Agents:** Aromatic mixture 700.000 mg/kg
- **Carriers:** 12.1.5 Inactive brewer's yeast 300.000 mg/kg

For every 10 kg live weight, add 1 scoop (2 gr) into your dog's feed every day as an aromatic appetizer and stir well before feeding.

A special mixture prepared with various plant extracts to help your dog fight against coprophagia (eating of feces). When used regularly, it prevents your dog from eating feces.

GLUCORUN 90 Tablets

clovit[®]

DIRECTIONS FOR USE and DOSING:

For 1-10 kg live weight, 5ml/day.
For 10-20 kg live weight, 10 ml/day.
For 20-40 kg live weight, 15 ml/day.
For live weight at or above 40 kg, 20 ml/day.

100% SALMON OIL
Omega 3 + Omega 6 + EPA + DHA

Is used in advised portions to support the natural development process and metabolism and to meet energy needs in Cats and Dogs.
Long-term use is advised for ideal effect.

RENAL LIQUID 150 ml.

clovit®

It is used to boost the metabolism and support treatment in the presence of disorders including;

- Acute and chronic renal failure – Pyelonephritis and glomerulonephritis
- Acute renal bleeding – Urinary tract stricture – Pelvic inflammation-induced urinary canal stricture
- Cystitis – Urolithiasis (oxalate, struvite)

This product is not a drug. It is a dietary supplement.

CLOVIT RENAL LIQUID CONTENTS:

- Grapeseed Ext. 5.000 mg/kg
- Astragalus 9.250 mg/kg
- Common Dandelion Ext. 7.550 mg/kg
- Horsetail Herb Ext. 6.250 mg/kg
- Urtica dioica Ext. 8.000 mg/kg
- Butternut Squash Ext. 5.250 mg/kg
- Rosemary Ext. 2.500 mg/kg
- Glutathione 1.250 mg/kg
- Methionine 17.750 mg/kg
- L-Taurine 18.750 mg/kg
- Potassium Citrate 25.000 mg/kg

APPLICATION METHOD and DOSES:

Unless a different dose is given by the veterinarian,
1.5 ml per day for cats.

0-20 kg per day for dogs. It is convenient to use 4 ml.

The duration and frequency of use depends on the opinion of the physician..

It is appropriate for use in acute and chronic renal and urinary tract disorders.

RENAL MAX POWDER 100 gr.

clovit®

It is designed to support, as a single product or in combination with the diets and special treatments recommended by the veterinary physician in the control of metabolic instabilities induced by chronic renal failure.

CLOVIT RENAL MAX POWDER CONTENTS:

Vitami C 50.000 mg/kg
Vitamin B6 5.000 mg/kg
Folic Acid 2.000 mg/kg
Vitamin B12 100 mg/kg
Citrus Aurantium 50.000 mg/kg
Enterococcus Faecium 200 mg/kg
Lactobacillus Acidophilus 200 mg/kg

APPLICATION METHOD and DOSES:

Unless a different dose is given by the veterinarian,
1 gr. per day for cats.
0-20 kg per day for dogs. It is convenient to use 2 gr.
The duration and frequency of use depends on the opinion of the physician.

It is a special dietary supplement formulated to support the renal function in chronic renal failure.

HEPATO LIQUID 150 ml.

clovit®

It can be used as a single product or can be combined with certain diets or treatments. It can particularly be used to treat primary or secondary kidney disorders in dogs induced by poisoning, specific drug therapies, infectious or parasitic diseases. Thanks to its antioxidant activity, the product is used to support treatment of all clinic cases that require a fast and powerful effect against the production of free radicals.

Is designed to support renal function
in chronic renal failure.

CLOVIT HEPATO LIQUID CONTENTS:

Artichoke Ext. 12.500 mg/kg
Turmeric 5.000 mg/kg
Milk Thistle 15.000 mg/kg
Vitamin E 12.500 mg/kg
Zinc oxide 375 mg/kg
Vitamin B12 10 mg/kg
L-Taurine 25.000 mg/kg
Betain 12.500 mg/kg
L-Arginine 10.000 mg/kg

APPLICATION METHOD and DOSES:

Unless a different dose is given by the veterinarian,
1.5 ml per day for cats.
0-20 kg per day for dogs. It is convenient to use 4 ml.
The duration and frequency of use depends on the
opinion of the physician.

DERM PRO LIQUID 150 ml.

clovit®

It accelerates the healing process in the treatment of acute and chronic dermatologic diseases and supports treatment of disorders in dry, matte and flaking skin and severe loss of hairs.

CLOVIT DERM PRO LIQUID CONTENTS:

Vitamin A 125.000 iu/kg
Vitamin D3 40.000 iu/kg
Vitamin E 2.500 iu/kg
Biotin 1.000 mg/kg
Zinc 200 mg/kg
Hyaluronic Acid 2.500 mg/kg
Selenium 7.50 mg/kg
Omega 3-6 275.000 mg/kg

APPLICATION METHOD and DOSES:

Unless a different dose is given by the veterinarian,
1 ml per day for cats.
0-20 kg per day for dogs. It is convenient to use 2 ml.
The duration and frequency of use depends on the
opinion of the physician.

While providing support for derm and feather health,
It also helps in the treatment of problems.

CARDIAC LIQUID 150 ml.

clovit®

-Cardiovascular system diseases – Cardiac failures
Cardiac dilatation – Anemia

EYE CLEANER 125 ml.

clovit®

Since the eyes of dogs and cats are fairly sensitive, they are very susceptible to the infections and infection-related diseases.

Pinkeye disease also known as conjunctivitis may occur in the eyes of dogs, dirt and dust puddles around the eyes may trigger the infection.

Since the eye discharge is especially much in some kind of cats, infection may occur accordingly, and the color of hair may change.

That is the why it is so important to use Clovit EYE CLEANER Eye Care Solution regularly in terms of protection of our

• CLOVIT EYE CLEANER CONTENTS

Put 3 drops of the Clovit EYE CLEANER in the eye of the pet and let the pet open and close its eyes. Clean around the eyes by using a cotton. Repeat it once or twice a

The substances contained in the formula of the product make it easier to soften and clean the dirt and crust accumulated around the eyes, prevent the stain.

EAR CLEANER 125 ml.

clovit[®]

To remove the cerumen and bacteria and fungi formed due to the cerumen, the ear should be cleaned by using Clovit EAR CLEANER ear cleaning solution regularly.

The structure of the ear canal of the cats makes it hard to remove the materials trapped bottom of the canal without help.

If these materials are not removed infection may occur.

Since the structure of the in-ear is pretty crinkled, it is easy for dusts and dirt to hold on.

Problems such as infection, fungus and itching etc. are inevitable, if it is

The substances contained in the formula of the product make it easier to soften and clean the cerumen, help
